

Season's Greetings:

Wisconsin River Power Company has reviewed as hereby approves the Half Moon Bay Community Association's December 10, 2008, restoration/reclamation plan. Thank you for this work and for the diligence with which you addressed the most recent violations.

WRPCo notes that the plan did not propose a cure for the unauthorized motor vehicle beach grooming that occurred at the end of last season. WRPCo proposes that the "cure" for this violation will be that the Association commit to obtaining prior written approval from WRPCo before any future beach grooming activities are conducted with a motor vehicle. WRPCo notes that this authorization can be granted by submitting and receiving approval on a Development Application form.

WRPCo is anxious to work with the Association to maintain this good progress and directs you to contact Darrin Johnson directly with future questions and concerns. At this time, there is no need to direct communications through WRPCo's counsel, i.e. me.

If you have any questions about this approval, contact Darrin. Thank you again for your cooperation in this important matter.
